

HELLO, I AM

# CHRISTOFOROS RENTIFIS

A WEB DEVELOPER

## ABOUT ME

Meticulous web developer with over 4 years of front-end experience, specializing in creating responsive and visually appealing websites with a strong emphasis on the mobile-first approach.

I am passionate about exploring the latest technologies and trends to deliver innovative solutions that align with business requirements and user needs.

My experience in multicultural and highly competitive environments has honed my adaptability and collaboration skills, making me a reliable and proactive team player.

I excel in both Agile and Waterfall methodologies, consistently ensuring that projects are delivered on time and to a high standard, while always upholding the company's values and strategic goals.

I am committed to continuous learning and growth, eager to contribute to projects that challenge my skills and drive my passion for web development.

## EXPERIENCE

- **Senior Software Engineer** 📅 Jun 2024 up to present  
**Netcompany-Intrasoft, Athens**  
As a Senior Software Engineer on the UI team for ERMIS at Netcompany-Intrasoft, I lead the design and development of user-friendly UI components, collaborate with cross-functional teams to ensure seamless integration with backend services, mentor junior developers, and contribute to the continuous improvement of our advanced, scalable customs solutions for global Customs Administrations.
- **Software Engineer** 📅 Aug 2022 to Jun 2024  
**Netcompany-Intrasoft, Athens**  
As a Software Engineer on the UI team for ERMIS at Netcompany-Intrasoft, I developed responsive and user-friendly UI components, collaborated with backend developers to ensure seamless integration, participated in UI/UX enhancements, and contributed to code quality through reviews and troubleshooting, all of which advanced the functionality and user experience of our comprehensive customs solutions.
- **Software Engineer** 📅 Dec 2021 to Aug 2022  
**Cognity, Athens**  
As a UI Developer for the AVIS project at Cognity, I collaborated with Avis to design and develop features for the Avis Easy Leasing application, leveraging React, JavaScript, and REST APIs to create responsive UI components, integrate location services, enable report downloads, and improve the user experience by implementing seamless car leasing functionality from selection to delivery.
- **Junior Software Engineer** 📅 Oct 2020 to Dec 2021  
**Intralot SA, Athens**  
As a Junior Software Engineer on the UI team for INTRALOT's Orion product, I developed responsive UI components using React, JavaScript, and MobX, implemented real-time updates with WebSockets, optimized data management with GraphQL, and contributed to the integration of advanced trading tools and risk management features, enhancing the platform's interactivity and scalability across multiple sales channels.
- **Mechanical, Electrical Engineer** 📅 Nov 2016 to Oct 2020  
**Freelancer, Chalkidiki**  
As a Freelance Mechanical, Electrical, and Plumbing Engineer, I led the development of electro-mechanical studies, supervised construction projects, and delivered services in mechanical and electrical design, HVAC systems, natural gas installations, energy inspections, and technical advising for residential and commercial buildings in Nea Moudania, Chalkidiki.

## EDUCATION
